

nuturepro™ celebrates the special bond between humans and pets. Every day, our pets provide us joy and unconditional affection, from how their adorable faces look to the way they joyfully welcome us home. For our part, we cherish the first time we've held them in our arms and all the moments since then.

Our pets take care of us in many ways, so it's important we take care of them, too. Your best pal is counting on you to provide a holistic, balanced diet to keep them nourished from the inside out.

Nurture your exceptional bond with nourishment you can trust. At nuturepro™, we combine the very best nutrition to ensure your pet lives a long, happy, and healthy life with you.

nuturePRO™

The Elderly Cat With a Youthful Spirit.

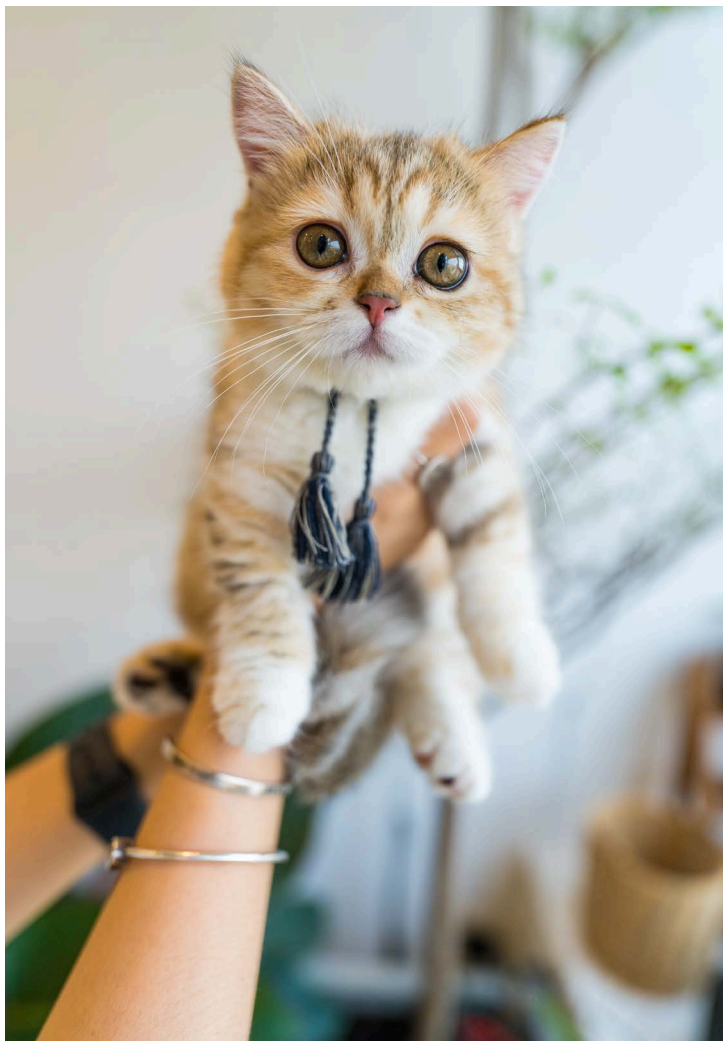

Surrendered at the ripe age of 18 by a family who could no longer afford her care, Kohi still got her second chance at a happy life. A young wordsmith continued to give her love, food, and shelter.

While the transition took time, now they are like two peas in a pod. Inseparable and always together. *With oodles of love and nurturepro™*
Nourish Life, Kohi is as happy and healthy as ever.

The Senior Who Found His Fur-ever. Otis, a 12-year-old senior, was surrendered to a shelter when his parents emigrated to another country. A widow who just recently lost her dog came to his aid. After a few checkups and minor surgeries, Otis is back on his feet again, happy and healthy as can be.

Aside from his big appetite and love for naps, he spends most of the day with his new sisters, two wildly curious tabbies. *Otis looks and feels his best with nuturepro™ Nourish Life.*

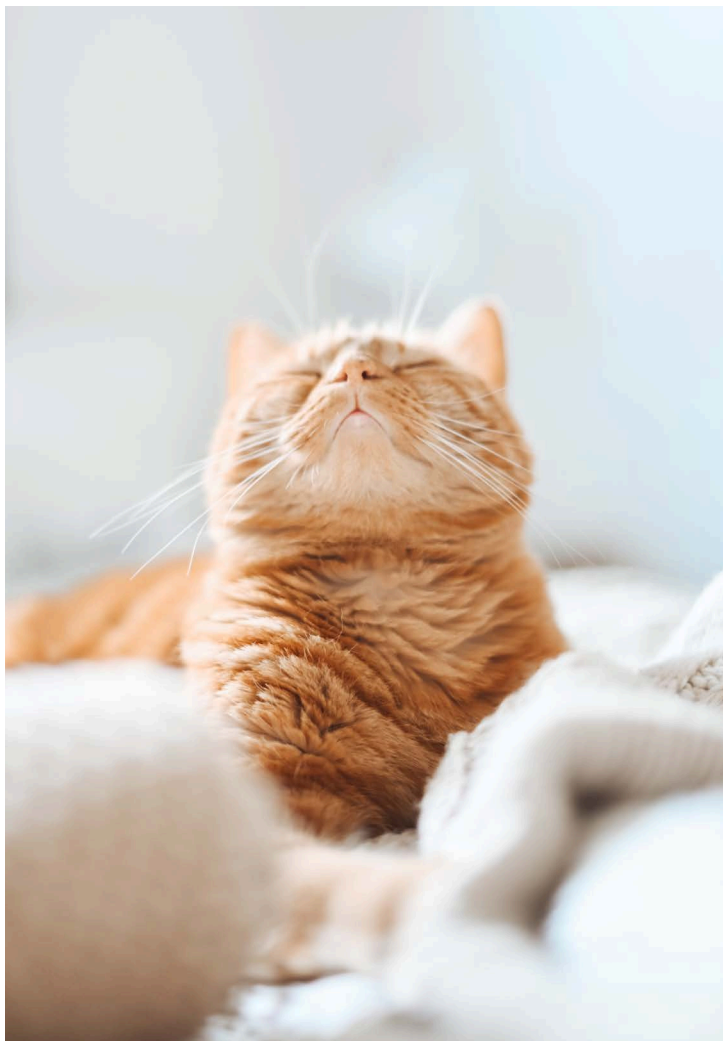

The Feline With Aversion to Litter. Alice has spent a good portion of her life living outdoors. Just like her namesake, this Alice also has adventures (or misadventures?), particularly in Litterland. Rescued by a loving couple, she was once fond of leaving unpleasant surprises on the floor (to her parents' dismay).

But with *a little bit of patience and nurturepro™ Tofu Litter*, her tracking dirt and messy days have finally come to an end. Alice and her family lived happily ever after.

The King of Sleep and Snuggles. This tiny pup with a penchant for all things squishy, is a lover, not a fighter. Lola was born deaf and adopted from a neighbour whose mom passed away shortly after giving birth. With love and patience, she can now easily respond to a wide range of sign commands.

Aside from long walks and trips to the market that make her squeal in delight, she loves to snuggle and snooze. *Lola keeps a nutritious and balanced diet with nuturepro™ Nourish Life.*

The Gift That Keeps on Giving. Gifted by a loving couple when their feline gave birth to a litter, Clyde is an absolute darling and the gift that keeps on giving. Before this Himalayan wonder came to the scene, his anxious paw parent was always hesitant to try new things. But along came this kitty, who helped keep worries away.

Clyde has captured the hearts of many—hoomans and furry friends alike. *A yummy bowl of nurturepro™ Longevity is his favourite way to end the day.*

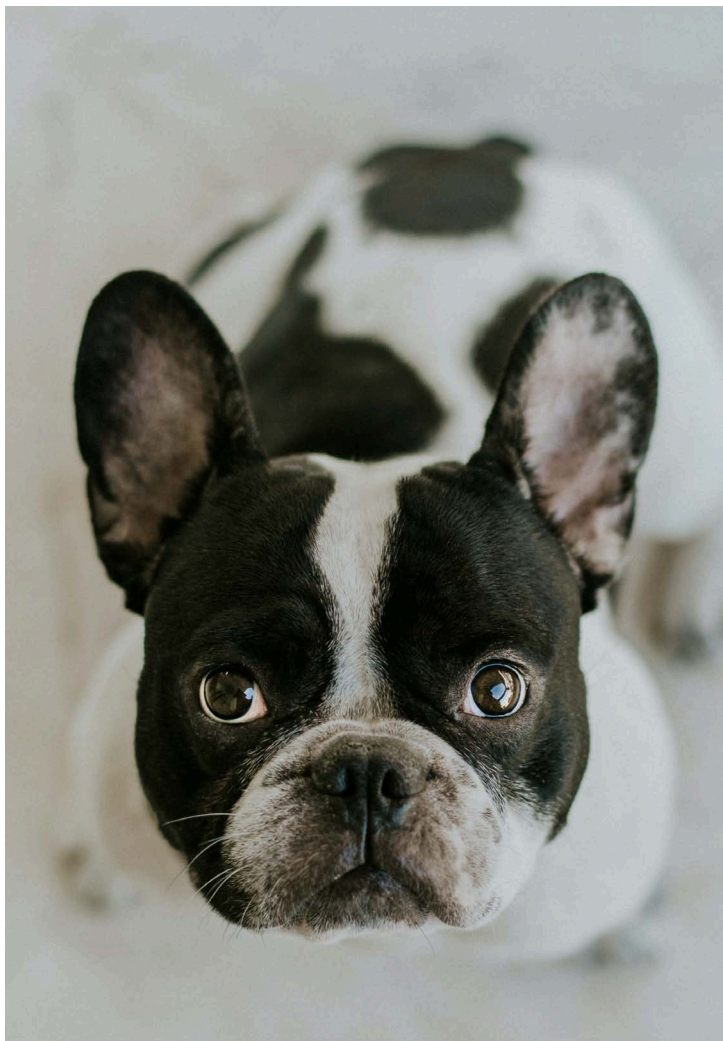

The Matchmaker in Disguise. Make no mistake, Apollo is small in size but big in personality. He playfully went amok in a patisserie, causing a fellow to spill his coffee. The little mishap was a blessing, thanks to the energetic little chum. His mama eventually tied the knot with the lucky man, this time with no spilled coffee around.

They now live in a home of three, soon to be four. *Apollo is just as agile as ever with nurturepro™ Nourish Life.*

The Adventurous Foodie. Morris, with his lustrous coat and round, curious eyes, is an adventurous foodie. Born to a home filled with food connoisseurs, it's impossible not to be. He spends his day mostly around piles of culinary paraphernalia and the aroma of decadent food. A gourmet meal makes his heart flutter but sometimes also makes his tummy whimper.

To keep that at bay, *he arms himself with nurturepro™ Kefir 118.*

The Big Ray of Sunshine. Looking more like a soft toy than a dog, Belle is a pint-sized pup that's impossible to miss. Behind the small physique is an incredibly big ball of energy. Gifted to a young lady who just moved into her first college apartment, Belle makes their humble abode truly feel like a home.

She loves outdoor play, which often brings dirt and mud inside the house. *nurturepro™ Pet Wipes helps keep Belle feeling fresh and smelling sweet all day.*

The Introvert Tabby. Nami is an adorable quiet tabby and an introvert at heart. Before being adopted to a loving family, Nami had hung around a busy café but was too shy to respond when people said hi. Luckily, the patient owners gave her food and treats until she finally felt ready to join their family.

She turns to nurturepro™ Nourish Life to keep her healthy from head to paw.

Nourish Life Dry Food with Grain

*For Kitten &
Adult Cat*

300g / 10.6oz
1.8kg / 4lb
5.7kg / 12.5lb

Kefir 118 Nutritional Supplement

Collaborating with scientists and nutritionists from Japan, nurturepro™ brings you the world's first kefir probiotic for cats and dogs: Kefir 118. Made with 100% Natural Kefir, it contains probiotic strains and fermented plant enzymes that provide an all natural boost for pets' gut health. Kefir 118 went through double fermentation process to eliminate lactose in milk, making it safe for lactose intolerant pets.

Made from all natural, human grade ingredients, Kefir 118's active probiotic strains are tested to be able to survive in gastric & bile acid up to 3 hrs, with the ability to reach small intestine and colon. This enhances the support in gut health and aids in boosting immunity of cats and dogs. Freeze dried to retain all the nutrients and potency of the probiotic and plant enzymes, Kefir 118 is packaged in single-used sachets for accurate dosage and ease of use. Our probiotic-rich, freeze-dried powder can be added to pet's food, treats and/or drinking water.

20g x 15 sachets

- Aids in digestive system
- Helps easy absorption of milk nutrients
- Boost immunity
- Prevents cellular damage
- Enriched with anti-inflammatory properties
- Improves insulin resistance. Reduce blood sugar and prevent diabetes
- Aids in the lowering of blood pressure and prevents high blood pressure
- Maintains general wellbeing
- keeps microbiome balanced in the digestive system
